## OUR SERVICES

### 1) Security Services

Attivo Protezione Pvt. Ltd. provides a comprehensive service offering turn-key risk management and security solutions at a cost to suit most budgets. Aspect of business or private investigation and Security often includes: Risk assessment; Crisis planning & response; Business & human intelligence; Personal close protection; Asset protection; Threat monitoring etc.

Our core team is comprised of a complimentary mix of highly trained, ex-military personnel, intelligence specialists, private security professionals and health and safety experts.

Our security personnel are carefully trained and uniformed to reflect the style and culture of each business and the working environment.

The organization has a comprehensive range of security and related services, which includes...

### (I) Manned Security Services

Attivo Protezione Pvt. Ltd. provides smartly uniformed, highly trained and well-supervised guards who are responsible for security and safety of assets, personnel and property against losses due to thefts, pilferage, intrusions, fire, flooding or accidents.

### (II) Female Security Team

"Female Security" is a very broad-spectrum word for us and includes far more than protection from direct physical attack. We weave an invisible security net that lets our clients free to indulge in new experiences, or pursue activities, be it work or leisure, which brings them joy without thought of negative consequence.

### (III) Body Guard

We provide Bodyguards, Close Protection Officers, and Executive Protection Officers to our clients all over India. Our dedicated protection officers provide corporates, celebrities, royal families, VIPs and private clients with a full range of discreet, personal and professional Executive Protection Services.

Our Body guards are professionally trained in surveillance, counter surveillance, law enforcement interaction, risk assessments and protective driving. They work to prevent embarrassment, humiliation, legal detention, and anything else that may pose a threat for you at any time.

### (IV) Bouncer

A Bouncer counts the broader category of Security Guards. His primary functions may include age verification, crowd control, dress code enforcement, intervener in altercations, first aid, and, in some cases, ejecting certain patrons from the establishment for causing disturbances or fights. He also administers crowd control and breaks up any disturbances. He will be interacting with people of all demographic of all types at all times.

Our bouncer's possess exceptional interpersonal skills, as he will be interacting with people of all demographic of all types at all times. Additionally, he is able to stand for long periods of time. He also is having good shape physically, as he have to intervene during altercations between patrons. He is comfortable working at typical hours such as nights, weekends and holidays. He is also comfortable working in an environment that may pose physical dangers.

We also provide Bouncers with experience within the law enforcement and/or having military background.

### (V) Electronic Security Services

We have provision of fully integrated electronic security solutions, closed circuit television surveillance (CCTV) and access control systems. We offer a comprehensive range of services, based on cutting-edge technology, for the commercial, industrial and public sectors.

These include...

- CCTV Surveillance
- Automatic Barricade
- Computer Based Monitoring
- Frisking Through Metal Detector
- Anti Theft Alarm / Burglar Alarms
- Geometric Location Tracker Operation
- Fire Prevention and Protection Equipments
- Operation with latest technology and gadgets

### (VI) Event Security Services

Whether you require security on a 'one to one' or 'special function' basis, we can provide experienced bodyguards, combat officers and close protection personnel as well as advanced security and transportation. We provide such type of personnel and services for public events, conferences, seminars, AGM's and exhibitions.

Our experienced management and support services team will be pleased to assist you with any event planning and preparation and, if required, will attend any pre-event security meetings on your behalf.

Rise To Lead

[www.attivoprotezione.com](http://www.attivoprotezione.com)

## (VII) Dog Squad

The Dog professionally plays an important role in operational security patrolling suspicious area of concern. Dog and Handler carry out specific task such as Tracking offenders or detecting explosive or narcotics. Dogs can often crawl or jump up onto places where it would be impractical or impossible for security members to go.

Our professionally trained Dog handlers, together with our highly trained security dogs, make an unbeatable combination to protect your assets and interests. The dog can use its heightened senses to scent, see or hear intruders or hidden person. Displaying controlled aggression and standing its ground, the dog can protect both security personnel and premises at the same time.

The greatest demand for Dog is at night when a Dogs acute sense of smell is most needed. However, there is a 24- hour roster for general-purpose dogs teams to be ensure there is always at least one team on duty.

## (VIII) Mobile Patrol

Mobile patrols provide a fast, efficient and professional service and are widely recognized as a cost effective alternative to a permanent manned security presence. Our team can provide a mix of both scheduled and random visits.

In line with each customer's specific requirements, high profile, uniformed Officers in clearly identified vehicles, will visit and inspect premises at agreed frequencies. Accurate data on each visit can be provided and the use of warning boards on the exterior of a building can be an effective deterrent for would-be vandals and intruders. We can provide highly trained officers to protect high value assets in transit.

## (IX) Under Cover Services

We provide specialists for under cover insertion into the organisations or target groups for surveillance, employee activity check and individual tracking tasks. Our confidential intelligence reports help address clients' concerns regarding ethics & transparency, harassment, malpractice, healthy & safety, IR issues and union activities, before they assume damaging proportions.

## (X) Site Security Survey

Our experts will carry out detailed and independent assessments of your security requirements and manage change where required. Surveys designed to reduce risk and costs, but maximize the impact of electronic security, virtual Security and manned guarding etc.

## 2) Value Added Security Services

### (I) Physical & Information Security Audit

A security audit is a systematic evaluation of the organization's security system by measuring how well it conforms to a set of established criteria. A thorough audit typically assesses the security of the system's physical configuration and environment, software, information, handling processes, user practices, regulatory compliances, access control procedures and systems to determine its level of vulnerability.

Our team of Physical & IT Security experts undertake integrated security audits in keeping with BS ISO/IEC 17799, 27001, 27005 and 31000 standards.

The services include:-

- Security policy formulation and review.
- Organization of information security.
- IT asset management.
- Human resources security.
- Physical & environmental security for IT setup.
- Communication and operations management.
- Access control.
- Information security Incident management.
- Business continuity management.
- Compliances for physical and IT security.

### (II) Security Survey, Risk Assessment & Business Continuity Planning.

Our experienced security professionals from defense services background have sound expertise in conducting comprehensive security appreciations for planning and deployment of physical and virtual security measures across the entire spectrum of business & other customized needs.

We help our clients in :-

- Review of security situation, threat vectors and factors effecting overall security.
- Identifying & analyzing threats & vulnerabilities.
- Planning and deployment for security of assets and premises.
- Loss prevention and shrink control measures for critical business mass and material.
- Employee safety and well-being services.
- Business continuity planning and crisis management support.

**“Protection of an Industry is as important as promotion of an industry”**

www.attivoprotezione.com

### **(III) Customized Security Budgeting, Project Planning & Management**

In today's fast-paced, ever evolving and extremely dynamic threat environment, the organization's needs for ensuring fool-proof, updated security and safety is a challenging task. It involves foresight, innovation and professional acumen in planning and execution of enterprise-wide security projects. Our qualified project managers have overseen several Greenfield and Brown field (upgrade) projects for planning, set-up and periodic upgrade of physical security architecture in respect of client office premises, commercial and industrial complexes, factory plants and workshop premises, residential complexes and townships.

We undertake :-

- Security budgeting, planning, design and deployment for a greenfield projects
- Technology upgrade and refinement for your existing security structure.
- Security Resource and Technology Optimization to achieve cost effectiveness.
- Long term, future-ready, environmental friendly security solutions.
- Implementation of non-intrusive security tools
- Enterprise-wide Security Project Management contract.

### **(IV) Smart Electronic Security and Surveillance Solutions.**

We undertake comprehensive security survey for our clients' office premises, warehouses, factory complexes and similar business needs, to include planning from drawing-board stage onwards, selection & siting, deployment & monitoring of security technology architecture.

We specialize in :-

- IP-based and local access control systems.
- CCTV surveillance.
- Remote monitoring solutions.
- Fire, anti-burglary and intrusion detection systems.
- Technical collaboration and consultancy services for Smart Video Analytics & biometric access controls and attendance systems.

### **(V) Security Automation and Communication**

We undertake setting-up and management of Integrated Command and Control (ICC) facilities for large & medium installations, to include planning, set-up and operation of a modern Command Centre, active 24x7 SOC - Operations and Emergency Response Facility.

Besides, we also cater to modern day needs for

- Visitor Management Systems solutions
- Wireless, walkie-talkie communications
- RTLS based vehicle fleet tracking systems.

### **(VI) Open Source Intelligence (OSINT) Solutions For Decision Makers**

The Modern day, ever expanding world of social media and internet based virtual connectivity, several new threat vectors, security challenges and safety variables have emerged. These tend to have a mass, global influence, often virulent and pose vast visibility. Hence these are hyper-sensitive and need to be handled with a professional, skilled diligence.

Our team of OSINT analysts and social media insight experts are armed with some of the most sophisticated and extremely powerful OSINT tools to always stay on top of this emerging new security paradigm. We have deployed multiple smart OSINT platforms to meet the diverse and customizable client needs in social media insight gathering and analysis. The smart, machine-learning tools used by our OSINT experts are among the best in the world, relied upon by the top most government and corporate entities globally. The accurate, reliable and timely inputs generated from open source with the help of these tools, facilitate decision makers and apex management of the company take important strategic decisions, and execute timely, proactive steps, thereby ensuring that they always stay ahead of the curve. As mentioned, our OSINT tools are customizable, scalable and intelligent.

Using these to make key leadership decisions, and to gain deep business, marketing & security insights is not only cost-effective but a real, value-for-money proposition. This specialized service of ours is useful to our clients in gathering an early warning on business opportunities, incidents, issues and events globally and in local markets; for keeping a discreet watch on social media activity within the office/work premise; to track specific individuals, groups and entities; to ensure employee safety; and to implement a strong counter-intelligence mechanism for the organization.

Dovetailed to this unique smart service are other value add-ons such as Travel Risk & Safety Advisory services, brand reputation management & risk mitigation, customer behavior insights, etc.

### **(VII) Cyber Security and Crime Consultancy**

With every passing day we are witnessing an exponential rise in cyber crime and cyber security breach incidents. The incidents have not only risen in numbers, variety, potency and virulence, but also severity of damage they can cause to the increasingly connected and integrated business systems globally. Ransomware, Identity Theft, Illegal Data Mining are some of the new generation crimes against which we are constantly struggling to find solutions and to mitigate risks. Our experts with vast corporate and military intelligence background blended

with cyber security skill set provide professional consultancy services in the following domains :-  
Cyber security initiative - detection, mitigation, awareness and staff training.

Cybercrime investigation, digital forensics services and evidence trail gathering.

Consultancy services for cyber security best practices, technology upgrades and optimized solutions.

### **(VIII) Corporate Investigations and Secret Services.**

We specialize in corporate investigations and clandestine, undercover assignments. Our qualified counter-intelligence specialists have been trained by some of the best secret services and military intelligence services of India, and around the world including Israel, US and UK. Our experienced investigators have an enviable track record of solving some of the most hi-profile, complex and super-sensitive cases of corporate espionage, brand abuse, subversion, military espionage and anti-national activities.

Our special services include :-

- Corporate intelligence and clandestine internal investigations.
- Fraud detection and risk mitigation.
- Hi-tech digital forensic investigations
- Digital evidence gathering and processing.
- Specialists for under-cover insertions, covert surveillance and activity check on suspects within and outside the organisation.

- Confidential intelligence assessments and security verification reports.
- End to end case resolution from detection to support for prosecution.
- Sensitive counterintelligence assignments to safeguard Company's reputation, trade secrets and sensitive proprietary information.

### **(IX) Verification & Background Check Services.**

Discreet as well as overt verification services in respect of employees/prospective employees and out-sourced staff; to include:-

- Comprehensive character screening,
- Detailed Background Verification.
- Reputation check.
- Customized HR services.

Making the right hiring decisions for your company is critical to your businesses success. But putting the right person in place is not always easy. In today's society, it's necessary for businesses to protect/to secure both their companies and their employees, so it's very important to conduct background checks.

Background screenings can be thought of as a first-line defense system for businesses. Having a screening process in place allows employers to make more well-informed decisions when hiring and can potentially put a stop to workplace risks such as theft, fraud, abuse or even worse.

## **3) Facility Management Services**

Facility management can be termed as the collaboration and utilization of people and resources helpful to render services and enhance the efficiency and effectiveness of the given space, work environment including the ambience and equipment, thus creating a comfortable healthy and clean environment for the people and the organization.

### **I) Housekeeping Services**

Fresh and clean surrounding will lead to a healthy working environment which is the basis for an efficiently functioning working environment. This also contributes greatly for the well-being of the employees and increases employee productivity as most people enjoy and appreciate clean and fresh surroundings.

Our aim is to cater to the needs of every customer requirements at an individual level by providing them customized cleaning solution where scope, level and the combination of services are carefully adjusted to each customer. We keep a tough control over our service quality to be capable of living up to the customer expectations.

**“ It is generally believes that contractual staff gives higher productivity ”**

## **II) Contractual Labour Services**

The Contract labour system helps the industrialization in taking privileged decision and also helps in benefitting the workers in all secured policies and norms.

We provide highly skilled, skilled, semi skilled, unskilled contract manpower services on a short long-term basis.

## **III) Chauffers / Drivers Services**

We provide experienced Chauffeurs / Drivers for company's vehicle, car rental and car leasing or personnel vehicles. Our chauffeurs are completely customer service focused and willing to assist the passenger in any way they can.

We provide drivers for light motor vehicle, commercial, heavy duty, fork lift, ambulance etc. for all type of clients from all industries.

## **IV) Staffing Solutions**

We provide staff at all levels on contractual basis keeping them on the company's payroll and we take care of their salaries and statutory compliances as well as IR issues.

In Nut shall, from the front-desk Receptionist to the decision-making Board, we can provide contractual employee who have a diverse portfolio of skills, experience and understand the key business processes.

### V) Logistic Support Services

Our Logistic Support team ensures that all incoming materials are intact and accurate, prepare outgoing shipments, review material documentation such as invoices and packing lists, and maintain inventory of material supplies. They may also be involved in transportation, stock control, warehousing and monitoring the flow of goods.

Responsibilities of our Logistic Support Staff includes,

- Coordinate and monitor supply chain operations
- Ensure premises, assets and communication ways are used effectively.
- Utilize logistics IT to optimize procedures
